

## Continuous Induction Sealing Machine

### Features:

1. It with function of self-examination and protection of over-current, over-voltage & overheat.
2. The power is adjustable. The machine is characterized by high sealing speed and can be equipped to production line.
3. The optional devices include bottle neatening machine and bottle rejecting machine.

### PARAMETERS:

HL-2000A

HL-2000B

HL-2000C

Voltage (V/Hz)	AC 220/50		
Power( W)	2000 (Adjustable)		
Sealing Diameter( mm)	16-50	30-80	70-120
Sealing Speed(m/min)	2.4-12( 30mm PE container, 120 containers/min)		
Container Height(mm)	30-260 (customize available)		
Inductor Size(mm)	850×120×90		
External Dimensions(L×W×H)(mm)	Main body: 600×450×1200 conveyor:1800×500×1300		
Net Weight(kg)	Main body:90 conveyor:80		Main body:90 conveyor:80
