

DXDZ SERIES

DXDZ-350W

RECIPROCATING PILLOW TYPE AUTOMATIC HORIZONTAL PACKAGING MACHINE

DXDZ-450W

RECIPROCATING PILLOW TYPE AUTOMATIC HORIZONTAL PACKAGING MACHINE

The machine is ideal for packaging solid products with regular shape such as biscuit, bread, candy, commodities and industrial parts. The bulk products need to be placed in a case/box to form regular shape first before being packaged.

Features:

- PLC control and Touch-Screen HMI that ensure easy parameters setting, high speed and high efficiency.

- Photoelectric tracking technology and digital input that ensure accurate sealing & cutting position.

- Self alarm display the malfunction.

- Constant temperature control, intelligent control and being suitable for all kinds of packaging materials.

- Dual frequency conversion control, bag length can be set and cut in one step so as to save time and film.

- Operator can set the machine-stopping position, so there is no sticking to the knife or film wasted.
